

Radon Certification Verification Form

Prior to providing radon services in California, section 106780 of the California Health and Safety Code requires that a person must have the appropriate certificates issued by the National Environmental Health Association (NEHA) and or the National Radon Safety Board (NSRB) (see reverse side for phone numbers and addresses) and must submit a copy of the certificate(s) to the department prior to offering or providing radon services. **Please enclose a copy of your certificate(s)** and complete this form if you or your business intends to provide radon services as specified in section 106775 of the California Health Safety Code (see the reverse side for excerpts of the California Health and Safety Code). **Send the copy of your certificate(s) and the completed form to.**

**Department of Health Services, Radon Program, 1616 Capitol Avenue, 2nd Floor,
MS 7405, P.O. Box 997413, Sacramento, CA, 95889-7413**

Should you have questions, contact the Radon Program 1-800-745-7236 or Richard Blood (916) 449-5674.

NOTE: The verification process will not proceed until all the required information has been received. Upon your request the department will update information regarding your certification(s) at anytime. In order do so, complete this form with the updated information and return to the address above. The update information will be posted within 14 days of receipt of this form.

Excerpts of the California Health and Safety Code

"Radon services" means any of the following:

- (a) The analysis of radon detectors or testing for radon or radon decay products by a commercial laboratory.
- (b) The performance of radon or radon progeny measurements in buildings by an individual person who provides professional or expert advice on radon and radon progeny measurements, radon entry routes, and other radon related activities.
- (c) The repair or alteration by an individual person of a building or design for the purpose, in whole or in part, of reducing the concentration of radon in the indoor atmosphere.

106780. (a) Except as provided in Section 106790, no person may provide radon services for the general public, or represent or advertise that he or she may provide radon services unless that person meets both of the following requirements:

(1) Successfully completes the National Radon Measurement Proficiency Program of the National Environmental Health Association or the National Radon Safety Board Certified Radon Professional Program.

(2) Submits to the department a copy of certificate demonstrating successful completion of either program.

(b) Persons certified to provide radon services shall successfully complete and submit to the department proof of completion of the National Radon Measurement Proficiency Program of the National Environmental Health Association or the National Radon Safety Board Certified Radon Professional Program every two years after initial certification.

(c) A copy of the current certificate of completion shall be submitted to the department at least 14 days prior to conducting radon services within the state.

106785. The department shall maintain a list of persons that have submitted proof of certification by either the National Environmental Health Association or the National Radon Safety Board Certified Radon Professional Program. This list shall be made available to the public.
